

Barcode scanning and stocktaking

Added: Version 4.01

During a stocktake, it is possible to save a lot of time and increase accuracy by using barcode scanners to scan stock instead of manually counting it.

Create a stocktake in the usual way (see [Stocktakes](#) for details). The stocktake window is exactly the same as when not using barcode scanners, except that the item filter has changed to be a location filter:

[illegible]
