22.16. Authorisation

Sometimes it is important that goods are not distributed to customers or receipted into stock until such an action has been authorised. mSupply has invoice authorisation functionality to make this possible and allows, for example, a manager to control the processing of invoices.

When invoices have to be authorised, it means that they cannot be confirmed until they have been authorised i.e. invoices without authorisation are held at status 'sg' or suggested. This means the official invoice can not be printed (and goods taken out of or receipted into stock) until the invoice has been authorised.

Configure mSupply for authorisation

You can set the authorisation of customer and supplier invoices and Goods Receipt Lines independently. You do it by setting the store preferences to make authorisation compulsory:

• Click on the **Special> Show stores..** menu item, click the **Preferences** tab. Now check the appropriate boxes as required. This is shown on the following screenshot:

1 Edit store	
Gyogone Central PMCT NAP	
General Preferences Logo Synchronization	
Sort available batches by VVIII Status rather than Expiry Patients created in this store not visible in other stores Items created in this store not visible in other stores Allow users to enter total quantities to distribute Round up the distributed quantity Able to pack items into multiple boxes Store : Able to issue in foreign currency Allow editing selling price on customer invoice lines Prinatize customer invoices automatically Customer invoices must be authorised Authorisation needed only if over budget Confirm customer invoices without asking Goods received lines must be authorised Confirm Suppler invoices must be authorised Confirm Suppler invoices must be authorised Confirm Suppler invoices without asking Goods received lines must be authorised. Locations must be entered for goods received. Able to specify manufacturer when receiving, ordering or quoting for items Show item unit column while issuing	When finalising a Goods Receipt
	Cancel OK

• Finally, click on the *OK* button to close the window and save the preferences. From now on, the invoice types you set the preferences for must be authorised before being confirmed.

Supplier Invoice authorisation

With the *Supplier invoices must be authorised* store preference set, your newly created supplier invoices will look like this:

00	Supplier invoi	ce	
Name Abbot Laboratories (singapore PTE.LTD Their ref SNG102 Comment New line Delete line	- (*)	22/05/2013 22/05/2013 \$	Colour : Black Invoice number : 2,010 Status : cn Goods receive ID : 0 Purchase Order ID : 0 Entered by : Sussol Store : General
General	Summary by Item Summar	y by Batch Price Log	Store . General
Lo Item Name 1 Abacavir 300 mg	Qty Pack Batch E 10 1 1.1.1 01/0	xpiry Cost Price Sell Price 11/2016 20.00000 20.400	
Other charges Item(s): Amount: 0.00	000		Subtotal: 200.00000 0 % tax: 0.00000 Total: 200.00000
Hold Export batch: 0 Finalize Margin: 2.00 Authorised		OK & Next D	elete OK 🗆 🗇

Notice the **Authorised** checkbox at the bottom left of the window. If you click the *OK* button button with this checkbox unchecked, you will get a warning message telling you that unconfirmed invoices cannot be confirmed and nothing will happen. If you have the permission set to allow you to authorise invoices (see here for details) then you can click on the *Authorise* checkbox and continue. However, if you do not have the permission set, the *Authorised* checkbox will be disabled and you cannot authorise the invoice. Another user who has the permission must check the box for you before you can proceed.

Unauthorising Supplier invoices and inventory additions

If you have permission to authorise an invoice, you can also unauthorise it. If the invoice has status "NW" then it has not been entered into stock, and you can allow users to edit it and you will still control the process of authorisation before the goods are put into stock. *However*, if the invoice is already confirmed, the goods have already been entered into stock, and any changes users make will affect stock levels immediately, even though the invoice is not authorised. Therefore, only unauthorise a confirmed invoice to make immediate changes yourself, then immediately reauthorise it.

Alternatively, if goods have not been issued, you can delete the lines off the invoice (and optionally then delete the whole invoice) and require users to enter a new invoice to receive the stock, and the normal authorisation process will apply to the new invoice.

Customer Invoice authorisation

With the *Customer invoices must be authorised* store preference set, newly created customer invoices will look like this:

Name Acu	mao/Remexio CHC	Co	nfirm date	23/05/20	13		Colour :	Black	
Their ref	AIL-403-2		Category	None		•	Invoice : 9,2 Entry date : 23/		
Comment New line	Delete line(s)	J. Backor	rders	History		+	Entry date : 237 Goods receive ID : 0 Status : cn Entered by : Sus: Store : Gen	ssol	
		ummary by Item S							
L Location	Acces Pin With Stopper for use IV.Inj.		Pack Size	Batch	Exp date	Sell Price 0.61148	Price exten	1.22296	
F 🖬 🖪 🖡	T Oth	ter charges litem:					Amount:	0.0000	
	<u></u>						Subtotal:	1.2229	
							0 % tax:	0.00000	
							Total:	1.22000	

Again, notice the *Authorised* checkbox at the bottom left of the window. This behaves exactly the same as the *Authorised* checkbox on the bottom left of a supplier invoice: the customer invoice cannot be confirmed until this checkbox is saved as checked. And, once again, if you do not have the *Can authorise invoices* permission set, it will be disabled and you will be unable to authorise the invoice; someone else, with the permission set, must do it for you.

Printing invoices which must be authorised

When an invoice is not authorised an attempt to print it will produce an invoice with an 'Unauthorised' watermark, just like this:

read of Lines.							Page 2 of 2
upplied to :							Status: cn
itibe/Ustaco						Comment : Ma	ria Ribeiro
itibe, OECUSSI						Confirmed: 1	1/12/2012
						Printed: 2	3/05/2013
woice Category :					A	uthorized by :	
omments : Maria Rib	eiro		(Collected by :	
Line Item		Quan	Pack 🧄 Batch	Expiry	Price	Extension	Box
	2.5 ml w/needle 0.6x 25 mm 2,5ml	100	1 none	00/00/00	0.00	0.00	
	5 ml, w/needie 0.7x30 mm 5ml	100	1 4204003	31/12/16	0.00	0.61	
	19 G x 1.1/2 (box/100) 1.1 x 40 mm	100		00/00/00	0.01	1.22	
	21 G x 1.1/2 (bax/100) 0.7 x 25 mm	100		00/00/00	0.01	1.00	
28 Disposable Needle	23 G x 1.1/4 0.65 x 32mm	100	-1	00/00/00	0.01	1.00	
					Те	otal: 647.68000	
Prepared By :	Signature :	Delivered By :	Signature:				
r toparou by :			orgenatore.				
Checked By :	Signature :	Received By :	Signature:				
Authorised By :	Signature :						

As soon as the invoice is authorised it will print normally without the unauthorised watermark.

Purchase Order Authorisation

Purchase Orders can also be authorised - refer to Authorising Purchase Orders.

View authorisation logs

mSupply records the authorisation and unauthorisation of invoices and creates a log record every time the authorisation status of an invoice changes. To view the log records click on the log tab of an invoice, as shown in the screenshot below.
