23.08. Changing users and passwords

Changing the current user

2025/08/13 20:11

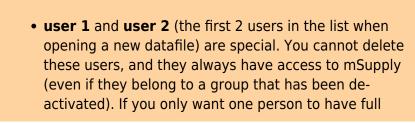

This allows you change the user that is currently logged into mSupply on the computer, without having to close and reopen mSupply.

Choose File » Change User This menu item allows you to change to a different user without quitting mSupply.

1 0	Log-in – 🗆 🗙
Search users	2. Enter your password
user 1 (pass= user1) user2 user3	3. Choose store if available
	General 4. Choose login mode if available Store
	5. Check any messages Connecting to data file on server: C:\mSupply \Database\mSupply.4DD
~	6. Click the OK button to proceed Quit OK
~	

If more than one user is sharing your computer, choose this item before you leave the computer so that the next user will have to log in with their user name & password before gaining access.

If you find yourself on this page accidentally and if you do not have sufficient permissions to change to another store or user then you will have to close and restart mSupply by clicking Quit or the red X at the top right of the screen and launching the program again.

access, set the user1 password to be the same as the user2 password.

Switching stores

This menu item lets a user (whose permissions allow) switch stores and/or login mode without the need to re-enter their password. Note that this screen does not allow a change of user; pressing *Cancel* reverts to the current store/login mode, so caution in using this feature should be exercised, and this screen should not be displayed when the computer is left unattended.

1 0	Log-in – 🗆 🗙
Search users	>
1. Click on your name in the list	2. Enter your password
user 1 (pass= user1)	
	No password required 3. Choose store if available
	General
	4. Choose login mode if available
	Store
	5. Check any messages
	Connecting to data file on server: C:\mSupply \Database\mSupply.4DD
	6. Click the OK button to proceed
×	Cancel OK

Change password

You can change your password by choosing File>Change Password....

Edit password	
Enter old password	
Enter new password	
Enter new password again	
Cancel OK	

You need to enter the new password twice to make sure you have typed it correctly.

- Passwords are case sensitive; make sure you don't have Caps Lock on.
 - When you enter a password you have to enter exactly the same text into the second field.
 - If you forget your password you must ask user 1 and user 2 to change your password for you - refer Changing the current user.

Edit users
