26.11. Letting mSupply do the hard work

Introduction

Once you have mSupply installed, and you have been faithfully recording stock transactions (receiving, issuing) and doing stock takes and finalising the inventory adjustments, then you are in a position to let mSupply do all the hard work.

Single store

Even if you have a single store on single-user version of mSupply, then you can:

Generate a Suggested order quantities report, or, using the same algorithms, Create a new (calculated) purchase order

Then, when the stock

If you have mSupply installed in a synced system consisting of supplying store(s) and receiving store(s):

Qan

Placing an Internal Order with requisition to your supplier
