

28.16. Microsoft Print To PDF Issue

The recent windows 11 update, especially, 24H2 and 25H2 have a known bug where the “microsoft print to pdf” features stopped working in result affecting print preview in pdf in mSupply.

Affected versions both windows and mSupply

- 1. Windows 11 24H2 and 25H2
- 2. mSupply Version prior to v8.08.18

Below is the sample Image of the Issue
