

28.16. Microsoft Print To PDF Issue

The recent windows 11 update, especially, 24H2 and 25H2 have a known bug where the “microsoft print to pdf” features stopped working in result affecting print preview in pdf in mSupply.

Affected versions both windows and mSupply

1. Windows 11 24H2 and 25H2
2. mSupply Version prior to v8.08.18

Below is the sample Image of the Issue:

Resolution

* **Step1:**Underlined Text
