

Why is my stock on hold

20/3/2018 : This document is currently being written and will be completed soon !

Stock can be placed on hold a number of ways.

Location

Setting the location on hold can disable the stored stock from being distributed. Steps:

1. Find the Location of the Item on Hold
2. Items>Show Locations>Search the location
3. Double Click on the searched Location
4. Uncheck the Hold button.

The screenshot shows the 'Edit location' window. The 'Hold' checkbox is checked, and a red speech bubble with the text 'Uncheck Hold' points to it. The window also displays fields for Code, Description, Location type, Parent, Summary, Comment, Total Volume, Volume used, Priority, and buttons for Delete, Cancel, OK, and OK & Next.
