

## 27.03. Help > About mSupply

You can get a lot of useful information about your current installation in the *Help>About mSupply* menu item. When you choose this from the menus, this window opens:

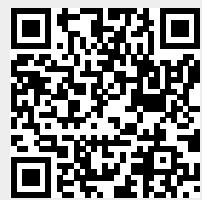

- **mSupply version:** This section, at the top, shows you what version of mSupply you are running and when it was released (date and time).
- **Paths:** This section shows you some of the paths to the datafile and the log file in case you need to track them down.
- **Show table records** button: If you click on this button
- **Show sync records** button:
- **Authorisation** button:
