Adding a new patient

Choose **Patient > New Patient**, or click the *New Patient* button on the navigator. This will show the following window:

The screenshot shows a software window titled "New/Edit Patient Info...". At the top, there are fields for "Patient code" (containing "2"), "Store" (a dropdown menu showing "Hospital Info System"), and "Registration Date" (containing "22/11/12"). Below these are several tabs: "General", "Contact details", "Encounter", "Disease history", "Log", and "Store". The "General" tab is selected. It contains two main sections. The "General Info" section on the left includes a "Title" dropdown (set to "Mr"), text boxes for "First Name", "Middle Name", and "Last Name", radio buttons for "Gender" (Female and Male, with Male selected), a "Marital Status" dropdown (set to "Single"), a "Blood Group" dropdown, text boxes for "DOB" (05/03/00) and "Age", and dropdown menus for "Occupation", "Religion", and "Ethnicity" (all set to "None"). There is also a text box for "National Health Number". The "Next of Kin" section on the right includes text boxes for "Name", "Patient Code", "Phone", and "Email", and a "Relation" dropdown. To the right of these is a "Patient Picture" section with a large empty box and "Add" and "Remove" buttons. At the bottom of the window are three buttons: "OK & Next", "Cancel", and "OK".

Most of the fields are self-explanatory..

- First & last name (mandatory)
- Next of Kin
 - Here you can link a patient to another existing patient.
 - Type the last name then a comma, then the first name (or part thereof), and press tab. A list of matching names will be shown. Double-click on a name to select that person.
- Patient Picture
 - You can add a patient picture by clicking the *Add* button.
- Address and other contact details can be entered on the *Contact details* tab.
