

Invoice Authorisation

*

mSupply provides the feature of subjecting Customer and Supplier Invoices to authorisation. Authorisation may be done for a number of reasons, typically value based, and may set to be allowed by only a restricted user or set of users. <note>Invoices that are subject to authorisation and are unauthorised are held in status 'sg' or suggested status. This means the official invoice can not be printed until the invoice is authorised.</note>

Configure mSupply for Invoice Authorisation

- First give the appropriate user the permission to manage authorisation of invoices.
- Click drop down menu **File> Edit Users...** double click the appropriate user and in the window that appears click on tab **Permissions (3)** and tick to turn on the **Edit Store Details** checkbox and click **OK**.

The screenshot shows the 'Edit user...' dialog box with the 'User' field set to 'Sussol'. The 'Permissions (3)' tab is selected, showing various permission categories. The 'Edit store details' checkbox under 'Virtual Stores' is highlighted with a red box.

Category	Permission	Status
Document management	Tenders	
	Upload document	✓
	Download document	✓
	Delete document	✓
	Quotes	
	Upload document	✓
	Download document	✓
	Delete document	✓
	Modify quotes entered by the supplier (via the website)	✓
Items Lines (Batches of stock)	Upload document	✓

Buttons at the bottom: All on, Delete, Cancel, OK

Configure mSupply for Invoice Authorisation

- Set Store preferences to allow for authorisation of invoices. Click drop down menu **Special>**

Store.. click tab **Preferences** and check boxes **Customer invoices must be authorised** and **Supplier invoices must be authorised**. Click OK to return to the Navigator.

The screenshot shows the 'Edit store' dialog box with the 'Preferences' tab selected. The dialog has four tabs: General, Preferences, Logo, and Visibility. The Preferences tab contains a list of checkboxes for various store settings. The 'Custom stock field' section on the right allows for up to four custom fields. At the bottom, there are radio buttons for 'Finalised' and 'On hold' for stock transfers. The 'OK' button is highlighted in blue.

Edit store

General Preferences Logo Visibility

☐ Sort available batches by VVM Status rather than Expiry
☐ Patients created in this store not visible in other store
☐ Names created in this store not visible in other stores
☐ Allow users to enter total quantities to distribute
☐ Round up the distributed quantity
☐ Able to pack items into multiple boxes
☐ Store mode : Able to issue in foreign currency
☐ Allow editing selling price on customer invoice lines
☐ Finalize customer invoices automatically
☒ Customer invoices must be authorised
☐ Confirm customer invoices automatically
☒ Supplier invoices must be authorised
