2024-03	4000	18339	0
2024-02	2320	21200	0

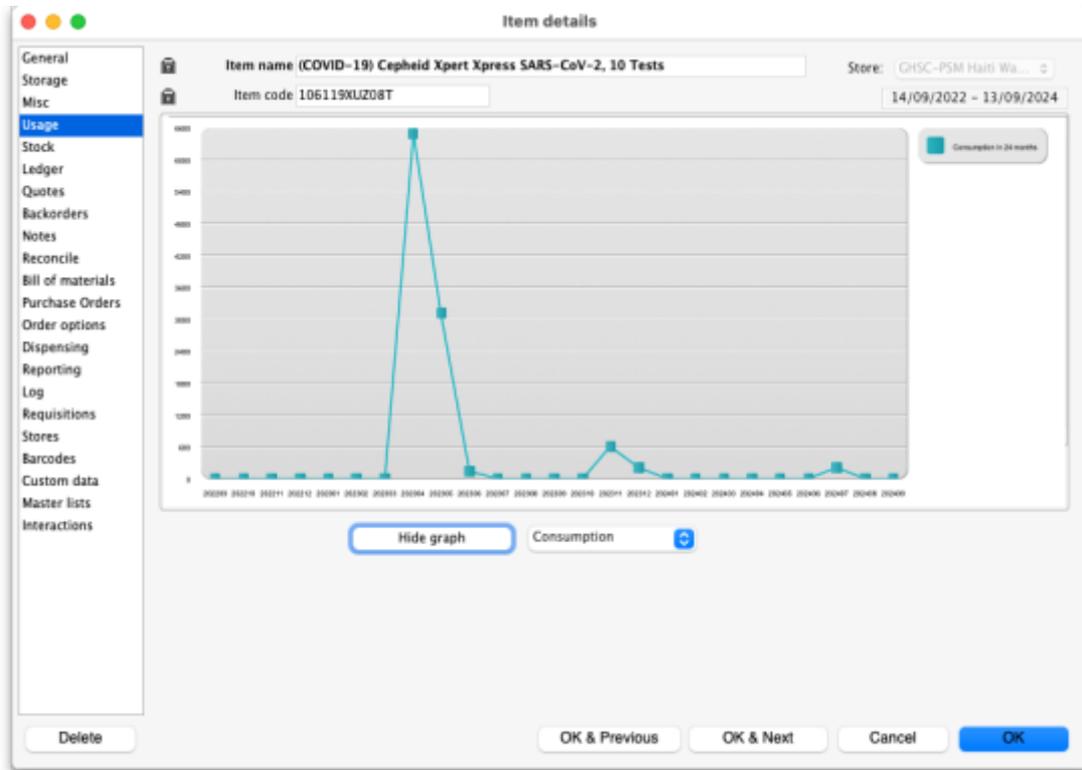

Summary statistics for 24 months: Mean usage: 3280.167, Standard dev: 5311.943. The 'Include builds' checkbox is unchecked. The 'Forecasting' section is currently disabled. The 'Projections' section is also disabled.

The Usage tab allows you to view the item usage per month for the previous 24 months. This information is very useful for quickly spotting a trend in usage for a particular item.

Below the list of usage for each month there is a drop down list to choose from 1 to 24 months. After choosing a value, the **Mean** (average) **usage** and **Standard deviation** figures will be updated to give the figures for the period chosen (the period is from the selected number of months ago to the current day).

Refresh usage button: This button allows you to update the usage with transactions that were added since you opened the window (this applies to multi-user mode). It also allows you to show the usage with or without build transactions included in the totals, depending on whether or not the **Include builds** checkbox is checked.

Show Graph button: Clicking this button shows the same information in a graphical format:

One coloured set of bars shows the usage for the current year, another coloured set shows the usage for the previous year (if data is available).
