

## Non-stock items

\*

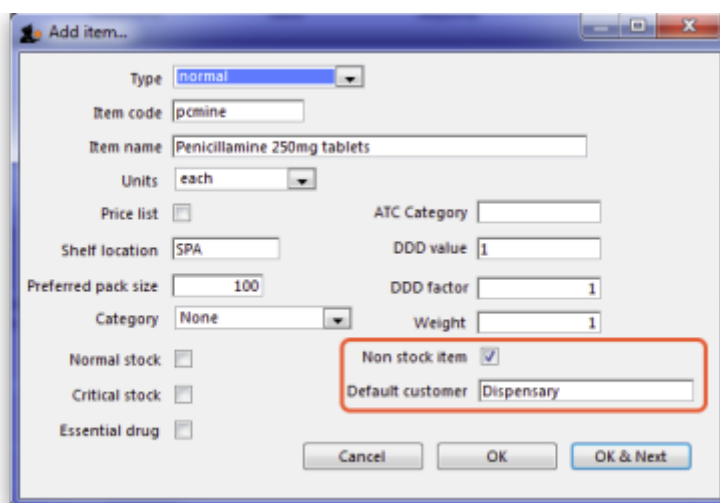

There are occasions when you need to order an item that you wish to add to your stock list, but which you currently do not wish to keep in stock. mSupply® treats such an item as a **Non-stock item**. Although you do not hold any stock of a non-stock item, it is quite likely that you may place regular orders for it.

Note that **Ad hoc items** are different in that:

- they do not display in your list of items
- it is likely that an ad hoc item will be ordered once and once only

The procedure for dealing with non-stock items is:

### Step 1

The screenshot shows the 'Add item...' dialog box with the following fields and values:

Type	normal
Item code	pcmine
Item name	Penicillamine 250mg tablets
Units	each
Price list	<input type="checkbox"/>
Shelf location	SPA
Preferred pack size	100
Category	None
Normal stock	<input type="checkbox"/>
Critical stock	<input type="checkbox"/>
Essential drug	<input type="checkbox"/>
ATC Category	
DDD value	1
DDD factor	1
Weight	1
Non stock item	<input checked="" type="checkbox"/>
Default customer	Dispensary

From the **Item** menu, select **New item**, and enter the particulars as you normally do, only this time check the **Non-stock item** box. In the box immediately below, select the customer from the list of customers held in mSupply®.

To place an order for a non-stock item, a customer must be identified, and this customer becomes the **default customer** for the item.

Should you need to order the same item for a different customer at a later date, the new customer is entered at the time the Purchase Order is being created.

The example is for non-stock item Penicillamine 250mg tablets.

### Step 2

Create the Purchase Order which will include the non-stock item. (from the navigator - *Suppliers/+Purchase Order/+new line*)

The screenshot shows a software window titled "Edit order line...". It has several tabs: "General" (selected), "Usage", "Quotes", "Receipt history", and "Ledger".

**Item:** Criseofulvin 250mg tab/cap. Store: General. Supplier item code: gri250t.

**Location:** Volume per pack: 0 m3. Shelf location: None.

**Original order:**

Number of packs	Pack size	Total Quantity	Units (ea,kg,ml)	Supplier item code
50	100	5000	ea	to711g

**Pricing for this item:**

Price before discount	discount (%)	Price after discount	Extension
42.0000	0	42.0000	2,100.00

**Requested delivery date:** 00/00/00 **Expected delivery date:** 00/00/00

**Stock:**

On hand	On backorder	On order	Received on previous deliveries
15,000	0	0	5,000

**Adjusted order:** Number of packs: 50. Pack size is same as for original order. Total Quantity: 5000.

**Comment (will print on purchase order):** [Empty text box]

**Notes:** [Empty text box]  Show notes on Goods Received

Buttons: Cancel, OK, OK & Next

### Step 3

On receiving the order, proceed as usual to the **New Goods receipt** form.

In our example, we have ordered 2 items from IDA, one of which is our non-stock item, Penicillamine 250mg tablets, and it appears in blue.

The Goods Received must be finalised in order to create the Supplier invoice:

L...	Lo...	Item Name	Qty	Pack	Batch	Expiry	Cost Price	Sell Price	Price extension
1	SPA	Penicillamine 250mg tablets	1	100	GZ202-6	31/08/01	0.00	0.00	0.00
2	LTE	Tetracycline 1% eye oint	20	50	tro8411	30/09/13	11.25	11.25	225.00

Uncheck the *Hold* box ( bottom left corner) then click on OK, and this *Alert* message is displayed:

advising you that 'Customer invoices have been created for non stock items.....': From the main menu, choosing **Customer > Show invoices** allows us to select and process the invoice which has been created automatically for the non stock item for our customer, the Dispensary.
