## Split a batch

The Split Batch feature of mSupply provides us with the ability to break down stock into small pack sizes, consolidate to larger pack size or move the location of a batch or part of a batch.

- Click on the line you want to split, then click **Split**

Repack stock...

Quantity to split  of 2566

New shelf location

New pack size

When you click OK a new repack transaction that reflects the change in stock will be created automatically

☐ Print location movement report

- Now we will move half of our stock to a different location
- Enter:
  - In field **quantity to split** to move/split (if you're repacking the whole lot, then enter the total quantity)
  - The new location (leave it alone if you're not changing the location)
  - The new pack size.
  - Click **OK**
- You can use the split command to perform these actions:
  - Change the location of a batch
  - Repack some of a batch
  - Change the pack size of a batch

## Produce a Movement report

- mSupply provides the feature of producing a 'Movement report' for stock that is split.
- Once you have entered the details of your split/new stock location, click on the checkbox labelled **Print Location Movement report** and click **OK**.

Repack stock...

Quantity to split  of 2566

New shelf location

New pack size

When you click OK a new repack transaction that reflects the change in stock will be created automatically

☒ Print location movement report

- The following report is displayed.

**National Medical Store**  
Supporting A Healthy Solomon Islands

**National Medical Store**

Kukum Highway Ranadi, Honiara, Solomon
