

# 11.04. Cash register

The **Cash Register** allows you to see and create in and out payments for the customers and patients in your store. It also shows you the current balance of the cash register and you can use it to manage cash reconciliation in a store if you are using a physical cash repository of some sort.

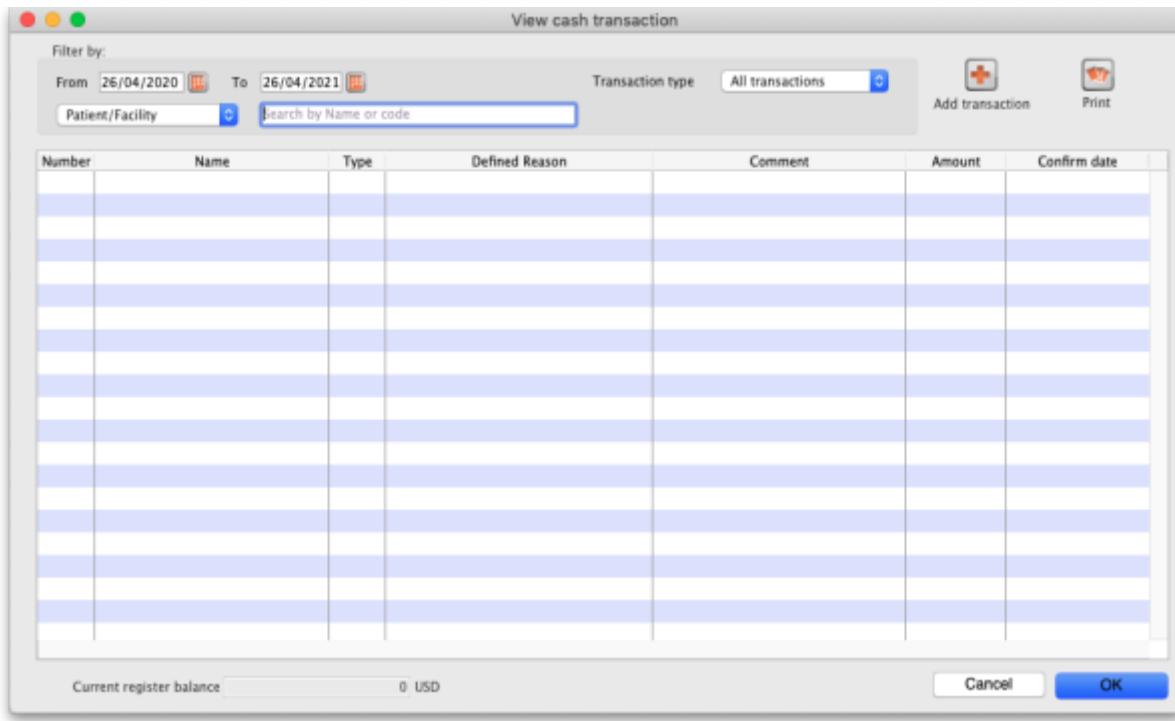

Any payments made in the [customer receipts module](#) or made on a prescription will also be shown here. Those payments differ to those made in this module in that they are attached to a transaction (customer invoice or prescription). Any payments made in this module are not attached to any other transactions.

## Viewing the cash register

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button:

3. The **Cash Register** will open:

By default the window will show all of today's transactions when it opens but you can use the filters at the top in the *Filter by* section to see just the payments you want in the table.

The *Current register balance* shows you the current balance of all the in and out payments in the datafile - this is the amount of cash you should have in your physical cash repository if you're using one.

For each transaction in the table you can see:

- Who the cash was received from or paid to
- Payment type:
  - **rc** is a cash receipt (cash paid to you by a customer or patient)
  - **ps** is a cash payment (cash paid by you to a “supplier”)
- Amount received or paid, where a **positive** number is **cash in** and a **negative** number is **cash out**
- Date of the transaction
- Other details such as reasons and comments

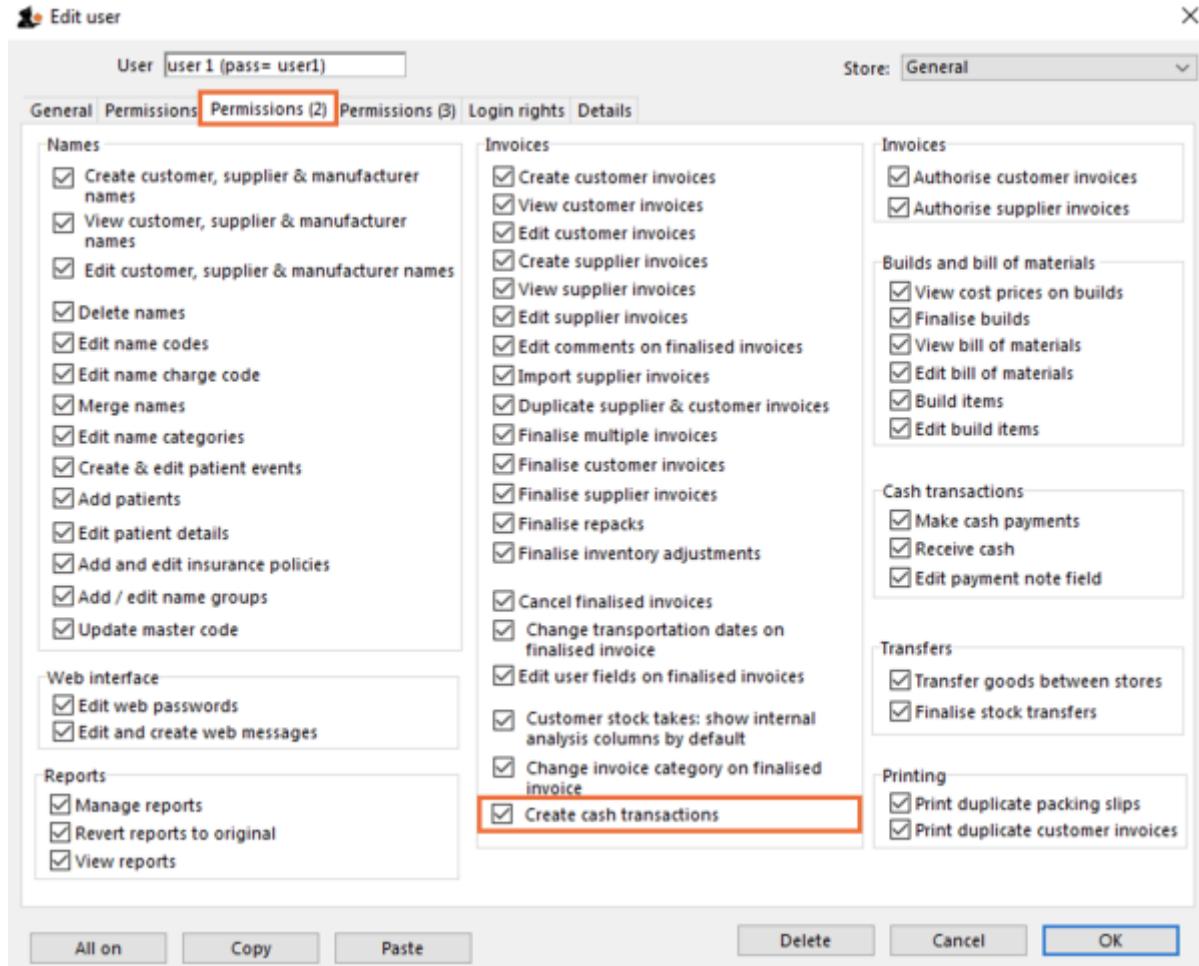

## Adding or removing cash

All transactions involving cash movement will be *automatically* added to the cash register. For example, receiving payments for prescriptions or making payments of supplier invoices.

You can set permissions to allow users to manually add **cash in** or take **cash out** from the cash register. For example, this may be necessary for depositing cash in the bank.

## Permissions for manual cash in/out transactions

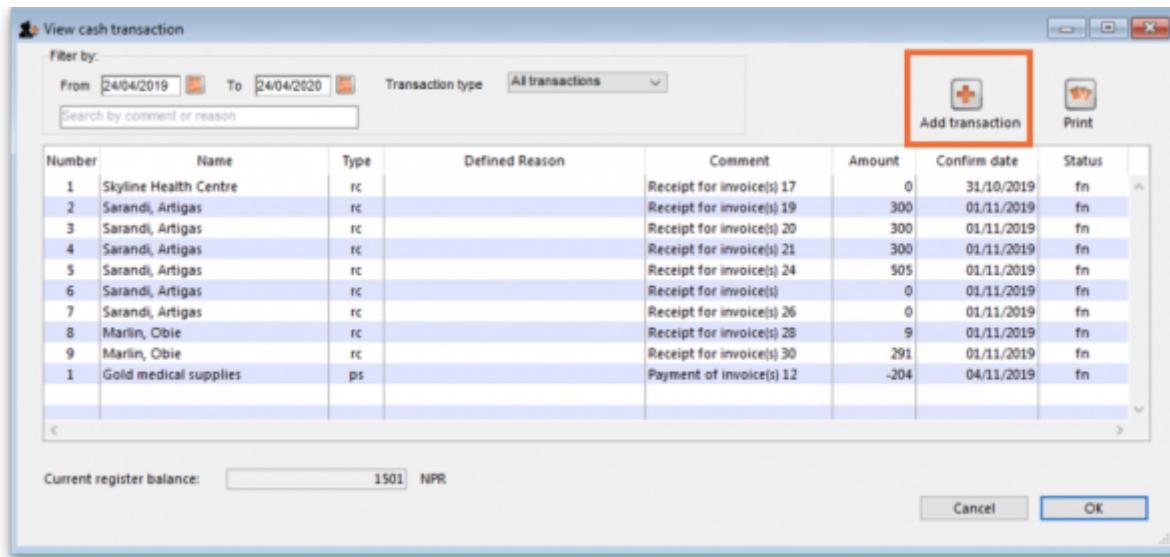

1. Go to **Admin > Edit Users** > double click user name.
2. In the **Permissions (2)** tab, check the **Create cash transactions** box to allow the user to perform manual cash in/out transactions.
3. Click **OK** until you return to the navigator screen.

## Manual cash in/out transactions

Once permissions are set:

1. Click the **Special** tab in the navigator.
2. Click the **Cash Register** button.
3. Click the **Add transaction** button. Note: If the user does not have permission to make cash register transactions, an error message will appear and they will not be able to proceed.

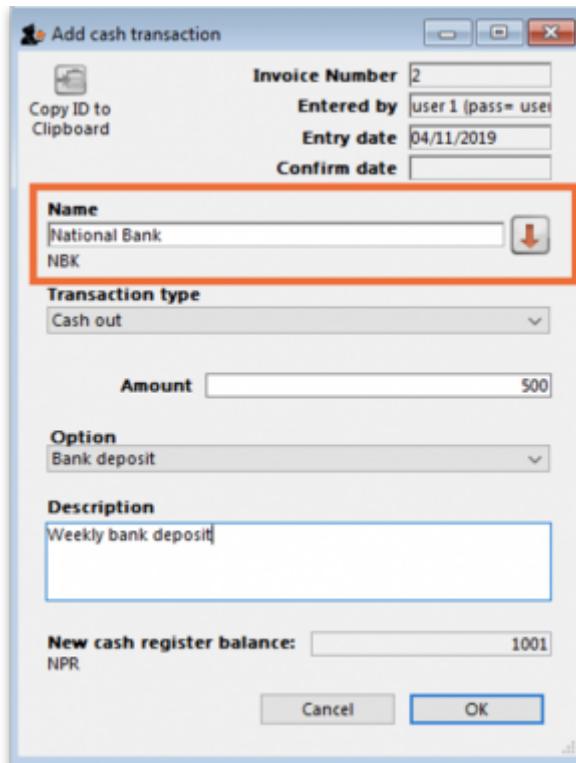

The screenshot shows a list of cash transactions. The 'Add transaction' button in the top right corner is highlighted with a red box. The transactions are as follows:

Number	Name	Type	Defined Reason	Comment	Amount	Confirm date	Status
1	Skyline Health Centre	rc		Receipt for invoice(s) 17	0	31/10/2019	fn

Current register balance: 1501 NPR

Buttons: Cancel, OK

4. Add the **Name** of the person/organisation to which the transaction relates.

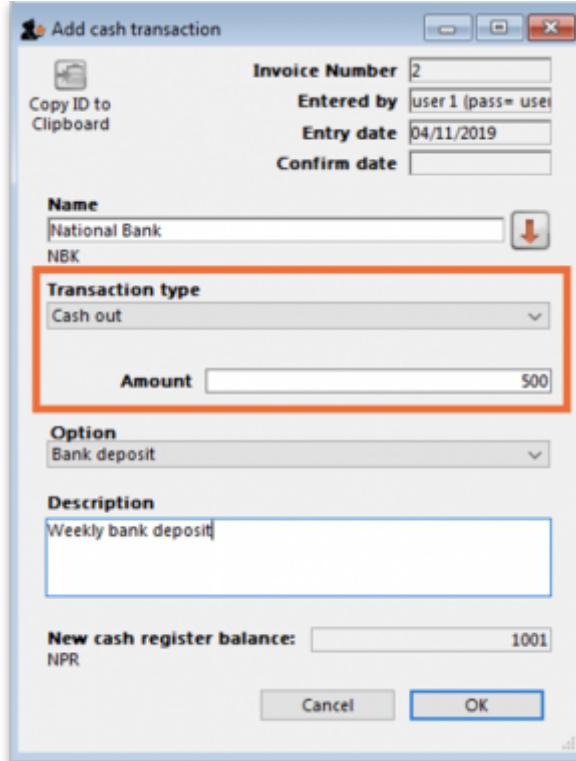

The screenshot shows the 'Add cash transaction' dialog. The 'Name' field, which contains 'National Bank' and 'NBK', is highlighted with a red box. The transaction type is set to 'Cash out' and the amount is 500. The new cash register balance is 1001.

Invoice Number	2

Entry date	04/11/2019
Confirm date	
Name	National Bank
Transaction type	Cash out
Amount	500
Option	Bank deposit
Description	Weekly bank deposit
New cash register balance:	1001

Buttons: Cancel, OK

5. Select the **Transaction Type** from the dropdown list: **Cash out** (remove) or **Cash in** (add).

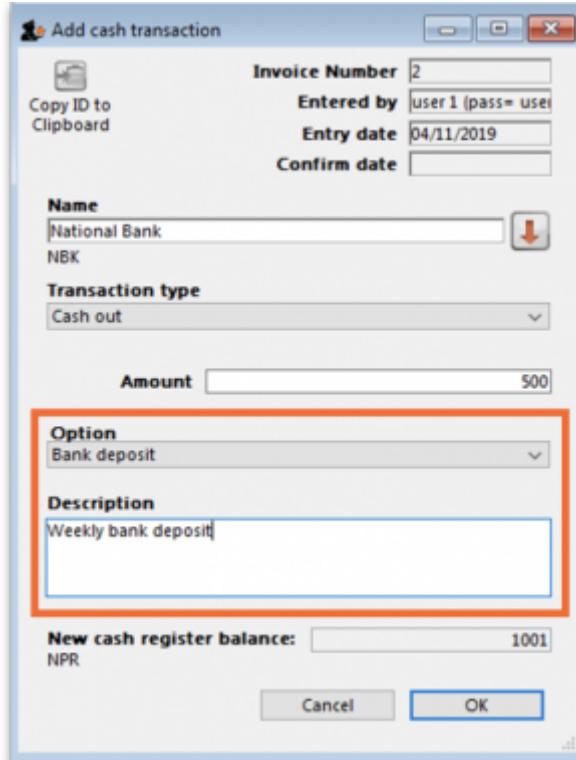

6. Enter the **Amount** of cash being removed or added.

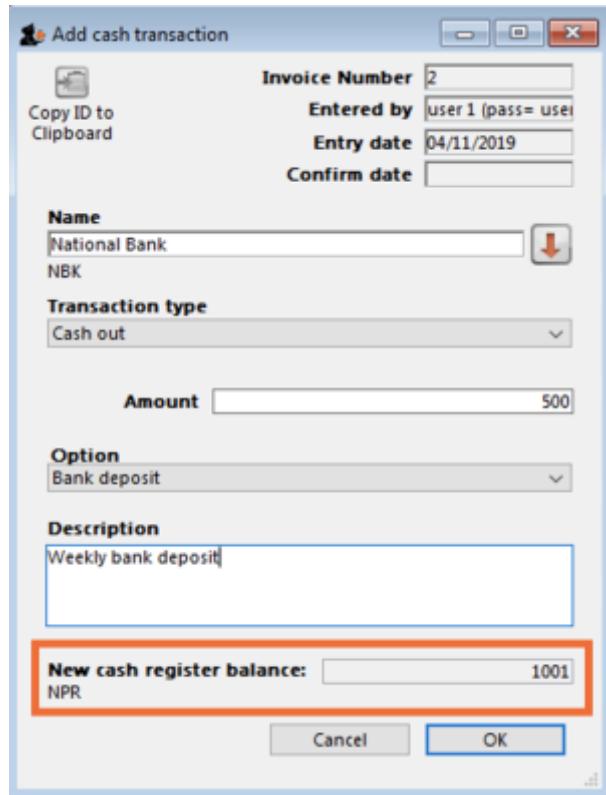

7. If you are making a cash out transaction and the **Option** dropdown list is activated, you must select a reason for removing cash. You may also add a **Description** to give further details of the transaction.

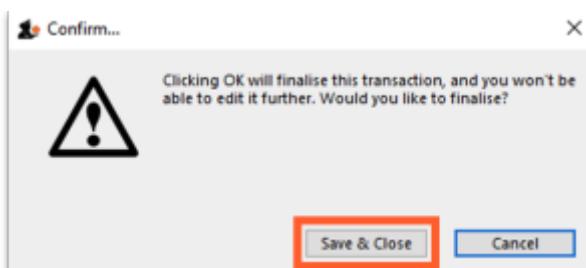

You can set a list of standard **Options** for the user to select from when removing cash from the register.

8. Review the **New Cash Register Balance**, which will be automatically calculated.

9. Click **OK**, then click **Save & Close** to finalise the transaction. Once finalised, the transaction can no longer be edited.

10. The new transaction will now appear in your cash register and the **Current register balance** will be updated.
