11.03. Prescription payments and credits

Prescription payment preferences

To receive payments for prescriptions in a dispensary, go to **Dispensary Mode Preferences** and check the **Receive payments from prescription window** box.

Once activated, a **Payment** tab will appear in the *Prescription Entry* window:

Patient details	Name Patient, Test		I.	Date	of birth	: 00/00/00		Female		Black
New Patient	Code: testp01		•		ddress				Store: AKPESSEK Entered 27/04/2020	
Prescriber Code:	Search Prescriber	Ŧ	Confirm date : Prescription date						Invoice 289 Entered by Sussol	
New Ine	Delete line(s)	History Repeat	s		Re	Note		Lategory No	ne v	ł
Line Loca	tion ABACAVIR 300 MG C	item Name		Quan 2		Batch fghj1234	Exp date 31/07/20	Sell Price 150.00	Price exten	300.00 ^
										~
S 🖬 🕯	tem 🛃			Amou	nt:	0.00			Subtotal: 0% tax:	300.00
				noiss	•	New note			0% discount: Total:	0.00
					_	Delete note			Amount Outstanding:	0.00

Entering the payment

To enter a payment from the Prescription Entry window:

1. Click on the **Payment** tab.

2. The **Total payment** field shows the amount that needs to be paid by the patient. Enter the amount the patient actually gives you in the **Amount given** field, then press the *Tab* key on the keyboard:

tient details		Patient, Test Testp01		ł	0	Date of birth : 23/11/1974 Address :	Female		Store: AX Entered 04/	PESSEKRO (lack CSR-D PUBLIC
Prescriber S Code:	earch Pres	criber		Confirm date : Prescription date	04/06/2020				Invoice 43 Entered by Su		
ems Paymen Other details	t				_	То Рау					300.00
									Invoice tot	3	300.00
This invoice	will be au Cheque	nomatically finalise	d if a payment i	s entered.					Total to pa		300.00
This invoice	Cheque		d if a payment i	s entered.	Ľ	Patient's credit status Current balance Credit limit		0.00		IY	
This invoice	Cheque		d if a payment i	s entered.		Current balance		0.00	Total to pa Available cred	iy žt	300
This invoice	Cheque		d if a payment i	s entered.	ľ	Current balance Credit limit		00.0 00.0	Total to pr	sy	300
This invoice	Cheque		d if a payment i	s entered.		Current balance Credit limit Payment details		00.0 An Ama	Total to pa Available crect rount paid by crect	ay dit	0.00 0.00 0.00 300.00

3. In this example, the prescription cost is \$300 and the patient will pay with a \$500 note, so 500 is entered in the **Amount given** field and the *Tab* key pressed. mSupply then shows you the change that is to be given back to the patient in the **Change to give back** field:

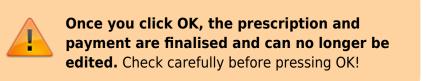

ient details		Patient, Test Testp01		Ţ	ı	Date of birth : 23/11/1974 Address :	Female		Store: AKP	Blac ESSEKRO (CSR 6/2020	
Prescriber Se Code:	earch Pre	criber		Confirm date : Prescription date					Invoice 431 Entered by Suse	sol	
ems Payment Other details	t										
	will be as	tomatically finals	ed if a payment ia	entered.		То Рау			Invoice total		
	will be au Cheque		ed if a payment ia	entered.					Invoice total Total to pay		00
		*	ed ≓ a payment ia	entered.		Patient's credit status Current belance		0.00	Total to pay	, 3	00
	Chequi	*	ed if a payment is	entered.		Patient's credit status Current balance Credit limit		0.00 0.00		, 3	
	Chequi	*	ed if a payment a	entered.		Patient's credit status Current belance		0.00	Total to pay	, <mark>3</mark>	00
	Chequi	*	ed if a payment ia	entered.		Patient's credit status Current balance Credit limit Payment details		0.00 An	Total to pay Available credit nount paid by credit	r 3 t 0. t 0. t 300.	00
	Chequi	*	ed if a payment ia	entered.		Patient's credit status Current balance Credit limit		0.00 An	Total to pay Available credit nount paid by credit ount paid by patient Total payment	r 3 t 0. t 300. t 300.	00
	Chequi	*	ed if a payment ia	entered.		Patient's credit status Current balance Credit limit Payment details		0.00 An Am	Total to pay Available credit nount paid by credit	r 3 t 0. t 300. t 3 t 3	00

If payment types have been set up, then you can select the type of payment being made in the **Payment type** drop down list.

Please note: You cannot overpay a prescription. If you edit the Amount given field to be more than

the **Total payment** amount the **Amount given** field will be reduced to the **Total payment** amount and the **Change to give back** will be increased by the difference.

4. Click **OK** to **finalise** the prescription and payment and close the window (if a payment is entered the prescription will be automatically finalised, you have no choice). If the **Print receipt** checkbox is checked then a payment receipt will print at this point.

Please note: You can save a prescription without a payment when the *Receive payments from prescription window* preference is turned on (see the top of this page) but the prescription will not be finalised, it will only be confirmed. You will be warned and asked to confirm that this is what you want to do if you do not enter a payment. If you want to enter the prescription payment later, you can find the prescription, open it and enter the payment then.

Paying with credit

Patients can be given a credit limit (see 10.03. Patients) and can use some or all of that credit at any time to pay off some or all of a prescription. Patient credits (see below) and cash paid into the cash register by a patient (see the 11.04. Cash register page for details) will add to the amount of credit a patient can use.

The process of using credit in a payment is exactly the same as the payment process described above, the only difference is that, if the patient has some credit available, mSupply will automatically use as much as it can to pay for the patient's prescription. You can see the amount of credit the patient has available (made up of their credit limit, patient credits and cash they have paid in) in the **Patient's credit status** section and the amount of credit used to pay for the prescription in the **Amount paid by credit** field:

lew Patient		Patient, Test Testp01		ł	D	ate of birth : 23/11/1974 Address :	Female		AKPESSEK	Black (RO (CSR-D PUBL)
Prescriber , Code:				Confirm date : Prescription date	04/05/2020]		Invoice Entered by		
ems Payment										
Other details						To Pay				
	will be a	tomatically finalise	d if a payment is	entered.		To Pay		Invoio	e total	300.00
	will be an		d if a payment is	entered.				Invoio Total t		300.00
	Chequ		d if a payment is	entered.		To Pay Patient's credit status Current balance Credit linit		Total t	to pay	
	Chequ	#	d if a payment is	entered.		Patient's credit status Current balance Credit linit		Total t	to pay	300
	Chequ	#	d if a payment is	entered.		Patient's credit status Current balance		Total t	credit	300
	Chequ	#	d if a payment is	entered.		Patient's credit status Current balance Credit linit		Total t .00 Available Amount paid by Amount paid by p Total pay	credit credit credit ment	300 100.00 100.00
	Chequ	#	d if a payment is	entered.		Patient's credit status Current balance Credit limit Payment details	100	Total 1 .00 .00 Available Amount paid by p	credž credž credž given	300 100.00 100.00 200.00

In this example, the patient has 100 credit available (made up of their credit limit only, which is 100) and all of that credit has been used to pay the prescription charge.

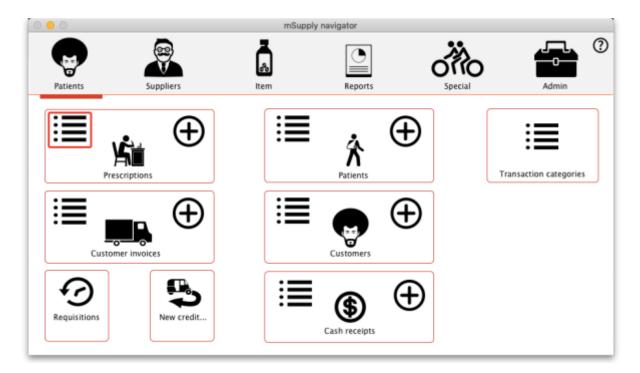

If you or the patient does not wish to use their credit, or wishes to reduce the amount of their credit used to pay the prescription, simply change the amount of credit used in the **Amount paid by credit** field and press the *Tab* key on the keyboard so that mSupply re-calculates the amount to be paid by the patient. Here is a screenshot if the patient in the example above decides to pay 250 towards their prescription and only use 50 of their credit:

You can allocate funds in a patient's favour by giving them a **Patient Credit**. You might need to do this if, for example, a patient returns faulty medicines they already paid for. Creating a patient credit increases the amount of credit a patient has. Patient credit can be used to pay for future prescriptions.

View patient credits

To view already created patient credits, choose **Patient > Show prescriptions** in the menus or click on the show prescriptions icon on the Patients tab of the Navigator:

In the filter window that appears, select the appropriate filter options and click on the **Find** button to show the prescriptions that match the filters (just click on the **Find** button without changing nything if you want to see the default 15 most recent prescriptions):

Patient credits have *cc* (for "customer credit") in the *Type* column, prescriptions have a type of *ci*. Iy you only wish to see patient credits then click on the **Customer credits** item on the left hand side.

Create patient credits

To create a new patient credit:

1. In the menus, choose **Patient > New patient credit...**:

2. Enter the patient in the **Name** field just as you would for a prescription. You can also enter other details such as a **Reference** (e.g. the prescription number this patient credit is related to) and a **Note** explaining why a patient credit is being issued.

3. Click the **History** button to view the items previously dispensed to this patient:

<u> </u>	Name Sarandi, Artiga	15	t	Date	of birth	: 01/02/198	5	Female	Store: General	lack
Prescriber Searc Code:	h Prescriber	(I) History	Confirm date : Prescription date	00/00/00	Re	ference		stegory Non	Entered 01/11/2019 Invoice 0 Entered by user 1 (pass- u	
Line Location		Ben Name		Quan	Pac	Batch	Exp date	Sell Price	Price exten	^
Date	k iten:			Amou Notes	nt:	0.00 New note Delete not			Subtotal: 0 % tax: Total:	0.00 0.00 0.00

4. Select the item(s) to be returned from the patient's dispensing history, then click **Add to credit**. Multiple items may be added at once:

Date	Number	Prescriber	Item	Quantity	Directions	
01/11/2019	24	CAR	Amoxicillin 250mg tab/cap	1		
01/11/2019	19	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	20	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	21	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	23	CAR	Amoxicillin 500mg tab/cap	1		
01/11/2019	24	CAR	Amoxicillin 500mg tab/cap	2		

5. Review the patient credit. Note that the price appears as a *negative* value in the patient credit window since it is a credit *to* the patient, not a charge.

payments_and_receipts:prescription_payments https://docs.msupply.org.nz/payments_and_receipts:prescription_payments

Name Sarandi, Artigas Name Patient Code: 10229487		A	f birth : 01/02/198 ddress :	6 Female	Store: General Entered 01/11/2019

Line Location 1 Amoxicillin 500mg tab/cap	Item Name	Quan	Pac Batch 100 YRT445	Exp date Sell Price 31/01/2019 100.00	Price exten
S i 💽 🖶 Rem:		Amoun Notes	New note		Subtotal: -100.00 0 % tax: 0.00 Total: -100.00

You can also add items *not* linked to a patient's history by clicking the **New line** button and entering item details just like you would for a prescription.

If you *only* want to allow users to issue patient credits for items linked to a patient's history, turn on the **Limit patient credits to previously prescribed items** preference in the *Invoices 2* tab of **File > Preferences** (see Invoices 2 **Preferences**). This will disable the **New line** button, and all items must be selected from the **History** button.

6. Once you are sure the patient credit is correct, check the **Finalise** box and click **OK**.

Remember you have also just returned items to your mSupply inventory! If you are going to destroy returned items, you now need to remove them from your mSupply inventory in a separate transaction (either a Reduce stock Inventory Adjustment or a Stocktake).

When the patient pays for their next prescription, their credit will be *automatically* applied in the Payment window.

In this example, the patient's current prescription is \$300 but they had a \$100 credit which is automatically applied to the invoice. Now, they only need to pay \$200.

Cancellations for prescription payments

When a prescription is cancelled, any payment made against it is not automatically cancelled because the patient might give you the goods back but not receive a cash refund. However, a patient credit is automatically created equal to the amount of the payment and assigned to the patient. This means the patient is refunded in credit, not cash.

If you really wish to refund cash to the patient, you need to find the patient credit created for them, cancel it and then go to the cash register and enter a cash out transaction for the patient. This will appear as a "ps" type transaction in the register. It is a good idea to have a separate payment type *Option* (16.10. Options (standard reasons)) for this type of cash out payment to allow you to report on them separately from other types of cash out transactions.

Previous: 11.02. Receiving payment from customers | | Next: 11.04. Cash register
