

Managing donors

What/Who is a Donor?

In mSupply, we have the idea of a '*name*'. A name can be a customer, a supplier, a patient, ... or a donor.

A donor is the organisation that has either paid for, or somehow managed the supply of certain items.

A donor *can* also be a supplier and / or a manufacturer or they can be just a donor. mSupply allows for any combination of that.

mSupply allows you to specify the donor for each incoming stock line independently of the supplier.

For example, GlobalFund might agree to supply certain malaria medicines, and then contract a supplier to deliver them to you. mSupply allows you to record this accurately, and to track and report on all the stock and transactions relating to those medicines donated by GlobalFund.

Using the Donor Module

To use the donor module, you must first turn it on:

- Click drop down menu **File>Preferences...**
- Click the **Invoice 1** tab in the left-hand list
- Check the box **Allow tracking of received stock by donor**

Once you have done this you can add donors and track stock by donor.

Adding or Editing Donors

To add or edit a donor you should first bring up the list of donors. Do this from the Navigator:

- Go to the **Suppliers** tab > **Show Suppliers** and check the box beside **Donors** so that the list shows donors rather than suppliers. Click **Find**. This will bring up a new window showing any donors you have added
- You can edit a donor by double-clicking on it.
- You can add donors using the **New** tool bar at the top of the window. This will bring up a window like this:

The screenshot shows the 'New donor' form in the mSupply application. The form is organized into several sections:

- Name Section:** Includes fields for Name (Arch Foundation), Code (arch), Charge to (arch), Master ID (0), and Master name.
- Contact Section:** Includes fields for email, web site, Phone, and Fax.
- Status and Price Category:** Includes a 'Hold' checkbox and a 'Price Category' dropdown set to 'A'.
- Store and Currency:** Includes a 'Store' dropdown set to 'General' and a 'Currency' dropdown set to 'VUV'.
- Supplier details:** Includes fields for 'Margin' (0) and 'Freight factor' (1).
- Printing:** Includes a checkbox for 'Print invoices alphabetically'.
- Category Section:** Includes a 'Category' dropdown set to 'Customer' and a 'Donor' checkbox checked.
- Other Section:** Includes fields for 'Category 1' through 'Category 6' (all set to 'none') and a 'Flag' field.
- Main/Billing Address:** Includes fields for Address 1 through Address 5, Post code, and Country.
- Postal address:** Includes a multi-line text area for the postal address.
- Shipping address:** Includes a multi-line text area for the shipping address.

At the bottom of the form are four buttons: 'Delete name', 'OK & Next', 'Cancel', and 'OK'.

- Now add your donor details and click **OK**.

Track a Donor in mSupply

Donors and the Purchase Order

- Create a Purchase Order in one of the usual ways - refer [Ordering Items From Suppliers](#).
- With donor tracking turned on, the Donor field will appear in the window - see below. The value you enter here will be tracked from this point on through to receipt, stock transfers and dispatch.

- In the **Donor** field type the first few characters of the donor name or code (or enter the wildcard character '@' in field) and press the **Tab** key on the keyboard. This opens the window below, showing the donor that match what you typed:

Printed on 2025/12/13 14:45

- If your donor does not exist, you can add it at this point by clicking on the **New** button - see [Adding or Editing Donors](#) above.
- Once you have selected your donor, click on the **OK** button and the donor's name will appear in the **Donor** field:

New Purchase order...

Order num : 87 Name: Central Medical Store CMS **Black**

Confirm date: 22/05/2013 Default donor: Arch Foundation Reference: Status: cn

☐ Finalize order ☐ Authorise

OK & Next Delete OK

- Add your Item line(s), check your order is correct and click the **Confirm** button to make the order available for Goods Receipt in the normal way - see [Ordering Items From Suppliers](#) for more details.

Donors and the Goods Receipt function

Receive goods in the usual way - see [Receiving goods \(Goods Receipt function\)](#). The only difference is that the Donor's name is now present in the Donor field:

Donors and the Supplier Invoice

-
- Printed on 2025/12/13 14:45

[illegible]

Default donor for each stock line

- Each stock line on a Supplier Invoice will inherit the **Default donor** from the Supplier Invoice.
- The **Default donor** can be edited.

Changing the donor for a particular stock line

- If you change the **Default donor**, you will be presented with the following options:

- “Do nothing”: The change will have no effect on existing invoice line(s).
- “Update existing donor lines with this donor”: existing donor lines will be updated to match the newly selected donor.
- “Assign this donor to the lines with no donor”: lines with no donor selected will be updated with the newly selected donor.
- “Assign this donor to all lines”: all lines will be updated with the newly selected donor.

Donors and the Customer Invoice

Customer Invoices, including stock transfers for donated goods are created in the usual way - refer [Issuing Goods to a Customer \(Customer Invoices\)](#).

- They key thing to note is that when selecting from the stock lines to add to the Customer Invoice, the donated stock lines can be distinguished from the other stock lines by the donor name in the **Donor** column - see below:

mSupply will still suggest a stock line according to its selection criteria (primarily, FEFO). You will need to manually select the donated stock line if it is not the first expiring!
