

## 12.03. Supplying a Supplier Hub site

An order from a supplier hub customer will appear in your mSupply instance as a customer requisition. The responsible officer for the store will see this alert when they log in, telling them that a customer requisition has been made.

- The customer requisition can be processed as usual (link to docs here)
- The customer site will only receive notification of the stock being sent once you finalise the customer invoice created from the customer requisition.
- Once the customer receives the goods, the customer invoice created in the step above will be updated to show when the goods were received and details of the goods received in the customer store.
- The actual arrival date of the goods can be seen on the Transport Details tab of the customer invoice (images below)
- The item details can be seen by clicking the 'View Goods Received Confirmation' button

Customer invoice (Read only)

Name: Vanuatu	Confirm date: 9/01/20	Colour: Black								
Their ref: Vanu	Category: None	Invoice: 9								
Comment: A test	Download	Entry date: 9/01/20								
	Download	Goods received ID: 0								
		Status: In								
		Entered by: user 1 (pass= user1)								
		Store: General
