Stock_take

Back to list of main tables

Field name	Description	mSupply Use	Reference link	Type	Indexed
comment	Free-text comments or notes for the stock take	Open/create any Stock take»Comment	https://docs.msupply.org.nz/items:stocktakes#preparing_the_stocktake	Text	
created_by_ID	ID of the user who created the stock take			Alpha	
Description	Short description or title of the stock take	Open/create any Stock take»Description	https://docs.msupply.org.nz/items:stocktakes#preparing_the_stocktake	Alpha	
finalised_by_ID	ID of the user who finalised the stock take			Alpha	
ID	Unique identifier for the stock take			Alpha	
invad_additions_ID	Inventory adjustment ID for stock additions			Alpha	
invad_reductions_ID	Inventory adjustment ID for stock reductions			Alpha	
Locked	Indicates whether the stock take is locked from editing	Open/create any Stock take»Locked	https://docs.msupply.org.nz/items:stocktakes#some_points_to_note	Boolean	
serial_number	System-generated sequential number	Open/create any Stock take»Stocktake number		Long Integer	
status	Current status of the stock take (e.g. draft, finalised)	Open/create any Stock take»Status		Alpha	
stock_take_created_date	Date the stock take record was created	Open/create any Stock take»Stocktake entered date		Date	
stock_take_date	Date the stock take was performed	Open/create any Stock take»Stocktake date		Date	
stock_take_time	Time the stock take was performed			Time	
store_ID	Identifier of the store where the stock take occurred			Alpha	
type	Stock take type; “cons” used internally for consolidated stock takes			Alpha	
programID	Program or source system identifier			Alpha	
om_created_datetime	OMS timestamp when the stock take was created			Alpha	
om_finalised_datetime	OMS timestamp when the stock take was finalised			Alpha	
reference	External or integration reference value			Alpha	
custom_data	Custom structured data stored as a blob			BLOB	
om_counted_by	OMS user who performed the stock count			Alpha	

Field name	Description	mSupply Use	Reference link	Type	Indexed
om_verified_by	OMS user who verified the stock take			Alpha	
om_is_initial_stocktake	Indicates whether this is the initial stock take			Boolean	
oms_fields	OMS-specific extended fields stored as a blob			BLOB	

Stock_take_lines

Field name	Description	mSupply Use	Reference link	Type	Indexed
ID	Unique line identifier for this stocktake entry			Alpha	
stock_take_ID	Reference to the parent stocktake			Alpha	Y
item_line_ID	Link to original stock line for this item			Alpha	
snapshot_qty	Quantity on hand at snapshot before counting			Real	
snapshot_packsize	Pack size recorded at time of snapshot			Real	
stock_take_qty	Quantity counted during stocktake		https://docs.msupply.org.nz/items:stocktakes#adding_items_not_in_the_stocktake_list	Real	
line_number	Display order of the stocktake line	Open/create any one Stocktake»See column Line		Long Integer	
location_id	Location where the stock is stored			Alpha	
Colour	UI colour indicator for the line			Long Integer	
expiry	Expiry date of the stock item	Open/create any one Stocktake»See column Expiry		Date	
cost_price	Cost price per pack			Real	
sell_price	Sell price per pack			Real	
Batch	Batch / lot number of the stock	Open/create any one Stocktake»See column Batch		Alpha	
item_ID	Reference to the item being counted			Alpha	
donor_ID	Donor or funding source of the stock	Open/create any one Stocktake»New line/edit»don0r		Alpha	
comment	Free-text notes for this stocktake line			Alpha	
optionID	Item option or variant reference			Alpha	
is_edited	Indicates the line was manually edited			Boolean	

Field name	Description	mSupply Use	Reference link	Type	Indexed
spare	Deprecated quantity adjustment field			Long Integer	
vaccine_vial_monitor_status_ID	VVM status recorded during stocktake			Alpha	
om_note	Operations or logistics note			Alpha	
custom_stock_field_1	Custom stock field 1 (if enabled) User-defined stock field	Is shown in Stock take input form column if it is set by pref		Alpha	
custom_stock_field_2	Custom field 2 User-defined stock field	Is shown in Stock take input form column if it is set by pref		Alpha	
custom_stock_field_3	Custom field 3 User-defined stock field	Is shown in Stock take input form column if it is set by pref		Alpha	
custom_stock_field_4	Custom field 4 User-defined stock field	Is shown in Stock take input form column if it is set by pref		Alpha	
countedExpiryDate	Expiry date entered during counting			Date	
hold	Stock marked as “do not issue”			Boolean	
item_name	Item name snapshot at time of stocktake	Open/create any one Stocktake»See column Item name	https://docs.msupply.org.nz/items:stocktakes#perform_the_stocktake	Alpha	
volume_per_pack	Volume per pack for storage calculations			Real	
weight_per_pack	Weight per pack for logistics			Real	
manufacturer_ID	Manufacturer of the stock item			Alpha	
snapshot_location_ID	Location recorded at snapshot time			Alpha	
snapshot_batch	Batch recorded at snapshot time			Alpha	
snapshot_expiry_date	Batch recorded at snapshot time			Date	
custom_stock_field_5_ID	Custom field 5			Alpha	
custom_stock_field_6_ID	Custom field 6			Alpha	
custom_stock_field_7_ID	Custom field 7			Alpha	
custom_stock_field_8_ID	Custom field 8			Alpha	
om_item_variant_id	Item variant reference			Alpha	
oms_fields	OMS-specific structured data			Object
