

User Guide

24. Data Tables and Fields

The following tables list the main data tables in mSupply (there are some others, but we're not telling you about those!). This information will help you if you are building your own reports.

Note that if a field is indexed, finding information (querying) using that field will be very quick.

- [24.01. Main tables](#)
- [24.02. Other tables](#)
- [24.03. Foreign keys](#)
- [24.04. Internal tables](#)

Summary of table names	Main Tables	Other Tables	Foreign Keys	Internal Tables
