Adding a customer or supplier

For this tutorial example, we will first add a new supplier, then add a new customer.

Adding a supplier

From the Navigator's opening screen, click on the 2nd of the large icons, **Suppliers** tab, then on the **New Supplier**

You will be shown this window to enter the details:

You can now enter the details for your new Supplier.

Field	What to do....

Try to choose a logical system, as the code is used to look up the Supplier (or Customer) when you are entering invoice data. (for example, try to start the code with at least the first three letters of the Supplier name)

Field	What to do....

Supplier details	
Currency	The field is automatically filled in with "Nrs" (=Nepali rupees - the default currency in our example data). This is the currency that this supplier will use to bill us.
Margin	Enter "10". Items purchased from this supplier will have a 10% margin added to calculate the selling price.
Freight factor	Enter "1". Acme Pharmaceuticals does not charge any freight to us. Their prices are "CIF"(Cost, Insurance & Freight to named port). This field is only used for comparing quotations from suppliers - it is not used for actual invoices.

It also shows 'Entered by: user 1 (pass=)' and 'Modified by:'. At the bottom, there are options for 'Display when' (never), 'Pick Color' (checkbox), and 'Beep' (0 times). 'Cancel' and 'OK' buttons are at the bottom right. In the background, the 'Edit customer/supplier' window shows a 'New Note' button (highlighted with a red rectangle) and a table with a 'Date' column.
