correctly.

Before starting the tutorial, you will need to have installed mSupply®, and opened the example database. If you haven't done so, see [Installation](#)

mSupply® runs best with a screen resolution of 1024 or 768 or greater. If you have your screen set to 950 x 850 or lower, some windows will not fit on the screen. To change screen resolution:

- Macintosh: Choose **Apple > System Preferences...** then click on the **Displays** icon and set a new resolution
