

3.10. Entering quotations

mSupply allows you to keep a record of prices that suppliers have quoted to you. Let's assume that you have just received 2 quotations for Amoxycillin 250mg capsules; one of the companies has used US dollars for their quotation, and the other has used British pounds, so before entering the details of the quotations, it is necessary that both of these currencies are recognised. To achieve this, choose the menu item **Special > Currencies**, and this window appears:

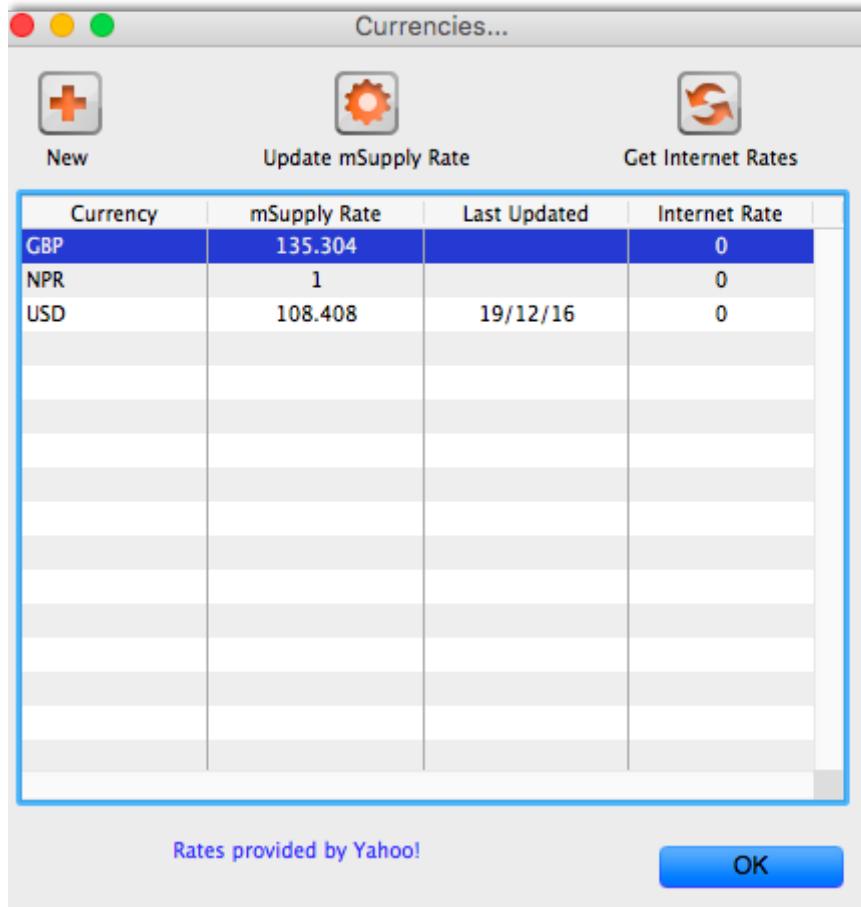

Click on the New button, and a window appears which allows you to enter another currency:

Enter "USD" in the Currency field; in the Rate field you should enter the number of units of the default currency - in this case Nepali Rupees - equivalent to 1 US dollar; at the time of compiling this tutorial, the rate was 71.74 N.Rs. to US \$1, so "71.74" is entered in the **Rate** field. Click on the **OK** button, and

repeat the exercise for British pounds, the rate presently being 116.36.

Once you have performed this, the Currencies window should look like this:

We're now ready to proceed.

To enter a quotation:

1. Choose **Items > Show items**
2. Type “Amox” then press Enter.
3. Double-click the “Amoxycillin 250mg caps” entry from the list.
4. The item view window, on the left, has vertical content list (General, Usage, Quotes). Click the **Quotes** line.
5. Click the “New Quote” button.
6. Note that the item is entered for us. We need to choose a supplier and enter their price details.
7. Enter “Arb” in the supplier field and press tab. Arbuckle distribution is automatically chosen. They have quoted in US dollars, so choose “USD” from the currency menu.
8. Their price is US \$3.50 per 100 capsules, so enter “3.5” in the price field and “100” in the pack size field.
9. Click **OK** to save the entry
10. Now click “new quote” again and enter the following details:

<HTML>

</HTML>

Supplier	Gold Medical Supplies
Currency	Sterling [GBP]
Price	20.00
Pack size	1000

<HTML>

</HTML>

Click **OK** when you are done.

Now we can see the list of quotes, which should look like this:
