

# 18.06. The Dashboard

Once set up the dashboard can be used to monitor and access reports from anywhere.

Users browse to the IP address of their [web server](#) (with `/dashboard/index.html` added as in <https://example.com/dashboard/index.html>) using their internet browser (such as Chrome, Safari or Firefox). This enables users to access reports using their computer at home or even their tablet or cell phone!

## Using the dashboard

### Login

You'll need to be given the right URL ("web site") to go to in your browser. Type it into the address bar of the browser you want to use (on the device of your choice) and click on the *Go* button or tap the *Enter* key. You will be shown the login page:

A screenshot of a web browser showing the mSupply login page. The page features the mSupply logo, which includes a silhouette of a person carrying a cross on their back. The logo is positioned above the text "mSupply". Below the logo is a login form. The form has two text input fields: "Username" containing "Minister" and "Password" containing a series of asterisks. There is also a checked checkbox labeled "Remember me" and a "Log in" button at the bottom.

Enter your normal mSupply login username and password and click on the *Log in* button.

You will be taken to your dashboard which will show the first "page" or tab set up for you by default. You can click on other tabs at the left of the screen (if they have been set up for you) to see other reports:

The dashboard works just as well on a tablet or your phone, but the different “pages” will be at the top of your screen, not on the left.

There are several very useful reports on the dashboard, helping you to keep up to date with current stock levels and much, much more. And, if one of the standard reports doesn't give you what you want then it's fairly simple to create a new one from scratch or by duplicating and editing an existing one (see [Setting up dashboards](#)). Below are just a few examples of the kinds of reports the dashboard can show for you:

Nutritional supplements and medicines at: <span style="background-color: #ff9900; color: white; border-radius: 50%; padding: 2px 5px;"> </span>	
Item	Stock
